The background image depicts a fantastical alien world. The ground is a mix of dark, textured concrete and patches of reddish-brown, moss-like vegetation. Several large, mushroom-like structures with grey, porous caps and thin stems are scattered across the scene. In the foreground, a creature with a green, moss-covered body and a long, pink, segmented neck is positioned on a concrete ledge. To its left, another creature with a long, curved, horn-like appendage is visible. On the right, a large, moss-covered structure resembling a leg or a thick vine is prominent. The sky is a deep, dark green, dotted with small, bright white stars, suggesting a night or low-light environment.
