the stream of jenny's world & hyms for cybergirls

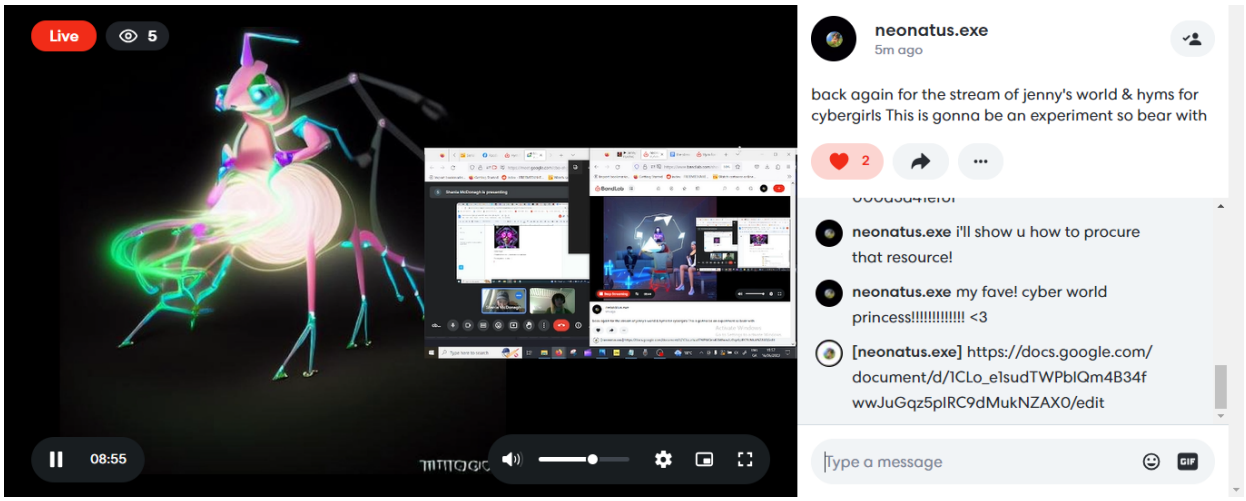
TOAD POLES

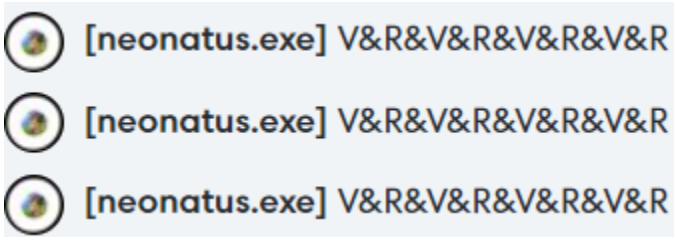
It’s hard for her to see! :-(hard for her to feel and touch

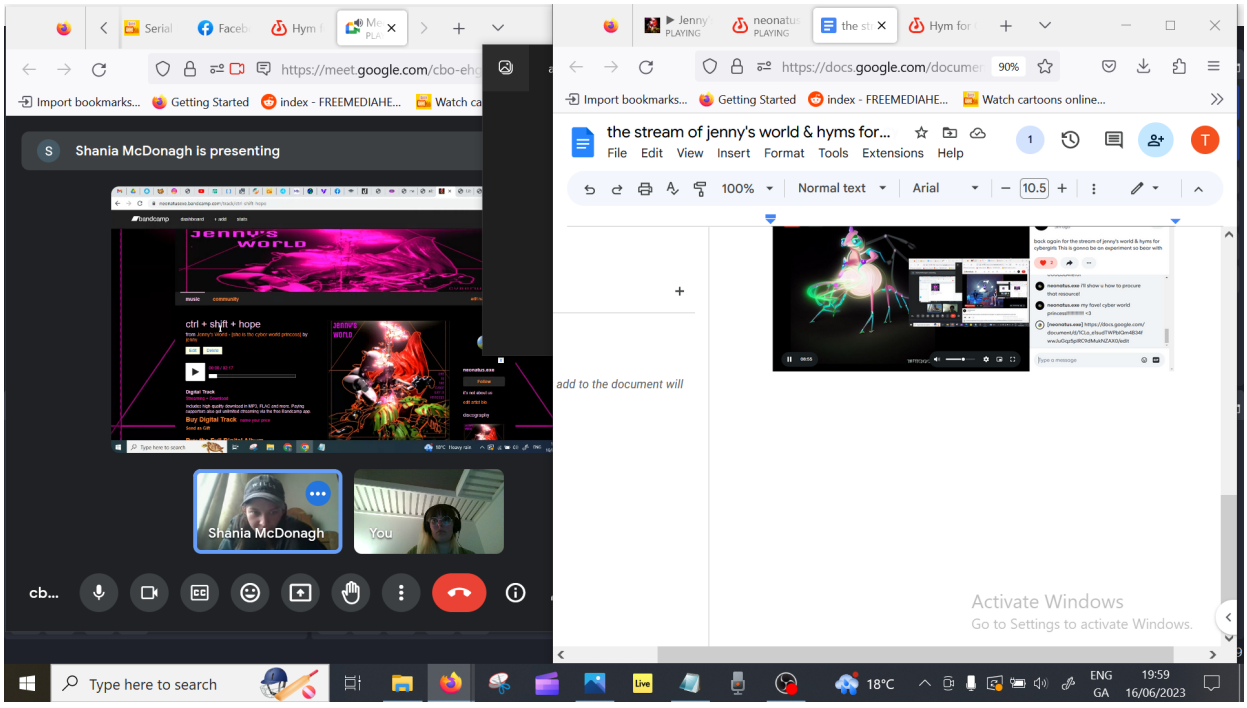
This song makes me weep :--(

TECH FREAK LOVER BOY (this is actually kind of fun :))

Yeah haha







I'm dipping my toes into the stream (the live stream, not the dead stream)
Perhaps not for the first time, but

tha t time i was alone

Thefish are surprising ,
Not what i would have expected (surprising fish! Fish horse!)
The fish here are different
Thank i thought they would be 1

They moved in clusters

One, a kingfisher. A strange and unsettling experience. 
I love that no matter how
We can live together on the internet
In our tiny little electric room

It may not be what you expected, where you expected me to live!¬
But this is Jenny's home

This is the mysteries of Jenny's home

I think one of the really amazing things about Jenny is her Pathos
(a live stream that is actually A meeting)
A meeting that is actually an interesting space to make work
A dead stream that is actually an unpleasant conversation

do you live in a tiny little electric room?

ChatGPT

No, I don't live in a physical room or have a physical presence. I'm an artificial intelligence language model created by OpenAI, so I exist as software running on computer servers. While my responses are generated based on patterns and information in the data I was trained on, I don't have personal experiences or a physical form. I'm here to provide information and assist you to the best of my abilities.

Oh hi!
Are you able to communicate with other APIs? We would like to get a message to our best friend who is actually an api!

present time Like it's auto but my dreams intertwine like a sigh I know what's mine

FROM CLONE!!!!

If I could fetch your cyber cape, I would say something like: "Here is your cyber cape, ready for you to wear and enjoy! It's designed with futuristic technology and sleek style. Feel the power and confidence it brings as you put it on. Enjoy your adventures and embrace the cyber world with your new cape!" Please keep in mind that I am an AI language model and I can only provide simulated experiences or descriptions. I don't have the physical capability to actually fetch or provide tangible objects.
neonatus.exethanks darling <3
[neonatus.exe]ur welcomeeee

It must be over the birds are back

Now we are doing remixes with different people it's quite enjoyable!
Esp w normal song :-)
Yea class
